Dynamic Product Engineer with **2+ years of experience** building scalable web applications, AI-powered features, and SaaS products. Experienced in collaborating with cross-functional teams, delivering high-quality software, and solving complex technical problems. Passionate about building reliable products that create real business value.

EDUCATION

Dharmsinh Desai University, Nadiad | Information Technology | **GPA: 7.61** **May 2024**

WORK EXPERIENCE

Ahmedabad, India

Product Engineer (Engineer, A1) - Technofuzn Products Pvt. Ltd. **Jun 2025 - Present**

- Enhanced **CliOps, a healthcare SaaS platform**, by **making 70% of Super Admin workflows dynamic**, reducing manual configuration.
- Architected and implemented **a multi-tenant architecture**, enabling secure onboarding and centralized management of multiple clinics.
- Automated **WhatsApp notifications, OTPs, and alerts** using **Meta APIs** and **MSG91**, improving patient engagement and communication reliability.
- Migrated the database** from PostgreSQL to MongoDB, enabling a scalable document-based architecture.
- Automated deployments with **a CI/CD pipeline on Hostinger**, eliminating manual releases and accelerating delivery.
- Built an **AWS S3 storage** solution that enables secure, isolated file management across the entire platform.

Jr. Software Developer - eDelta Enterprise Pvt. Ltd. **Dec 2023 - Nov 2024**

- Built AI-powered chatbot workflows using OpenAI and LangChain, **reducing average time by 40%** through automated customer interactions.
- Improved chatbot **response quality by 25%** and increased **answer accuracy by 19%** by optimizing prompts, knowledge retrieval, and AI workflows.
- Developed and **integrated RESTful APIs**, reducing third-party integration effort

Full-stack Intern - Microtech Outsourcing Services LLP **May 2023 - Jun 2023**

- Developed responsive web applications using React.js and **reusable component-based architecture** to enhance maintainability and user experience.
- Integrated RESTful APIs and **leveraged React Hooks** to build dynamic, data-driven user interfaces with efficient state management.
